Safety precautions

Congratulations for purchasing your new digital photo frame. With this Digital Photo Frame, you can easily and quickly view photos directly from your digital camera's memory card. You can even create a slide show with multiple transition effects. The Digital Photo Frame is compatible with the following memory cards and device: SD, MMC and USB device.

Warning

WARNING:TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL

THIS SYMBOL INDICATES THAT DANGEROUS VOLTAGE CONSTITUTING A RISK OF ELECTRIC SHOCK IS PRESENT WITHIN THIS UNIT.

THIS SYMBOL INDICATES THAT THERE ARE IMPORTANT OPERATING AND MAINTENANCE INSTRUCTIONS IN THE LITERATURE ACCOMPANYING THE APPLIANCE.

- High voltage inside. Do not open the casing of the digital photo frame. Refer servicing to qualified personnel only.
- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- To avoid permanent loss of data, do not insert or remove memory cards or USB device when the power is on.

Safety instruction
- The product shall not be exposed to dripping or splashing liquids and no objects filled with liquids, such as vases, shall be placed on the product. Dry location use only.
- No naked flames sources, such as candles, should be placed on or near the product.
- Keep the digital photo frame clean and never store it next to a heat source or in dirty, humid or wet places. Keep it out of direct sunlight.
- Press the buttons gently. Pressing them or the screen too hard can damage the digital photo frame.
- Do not use the product in an extremely dry environment as this can lead to static discharge, which can damage the digital photo frame.
- Do not subject the product to harsh impacts. Do not drop the appliance. These may result in damage to the product and loss of data.
- Do not attempt to repair or disassemble the unit by yourself. Only qualified service personnel should perform repairs.
- The digital photo frame is for indoor use only.
- Only use the DC 12V power adaptor supplied with this product. Do not unplug the adaptor when viewing the pictures.
- Do not block the ventilation holes on the back of the digital photo frame.
- Children should be supervised to ensure that they do not play with the appliance.
- Please unplug the product when you do not intend to use it for a long period of time to prevent overheating and damage to the screen.
- Please insert the plug into the DC IN jack completely on the unit before connecting the AC adaptor to mains supply.
- This product can only play files with compatible format.
- Do not use the product in extreme temperature, the best operating temperature is 5°C-35°C.
- Do not allow metallic objects to touch the DC plug when the player is on.

• Button Battery Warnings
1. CAUTION: Do not ingest battery, Chemical Burn Hazard
2. The remote control supplied with this product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
3. Keep new and used batteries away from children.
4. If the battery compartment does not close securely, stop using the product and keep it away from children.
5. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.
6. If you suspect a child has swallowed a button battery, immediately go to a hospital emergency room.
7. Examine devices and make sure the battery compartment is correctly secured, e.g. that the screw or other mechanical fastener it tightened.
8. Dispose of used button batteries immediately. Flat batteries can still be dangerous.
9. Tell others about the risk associated with button batteries and how to keep their children safe.
10. Call the Poisons Information Centre on 13 11 26 for additional treatment information.

Cleaning and care

• Always turn off the unit and remove the power adaptor from the mains outlet before cleaning the unit.
• Use a soft dry cloth to clean this product.
• Never spray or pour liquids directly onto the screen or casing.
• Do not use abrasive materials or chemical cleaners such as alcohol, benzene, etc. Do not allow any water or other liquid to enter the appliance.
• Do not drop the unit, which is a complicated electronic device and cannot withstand shock from falls.
• Do not hit or scratch the screen. Handle it with care. The LCD panel of the photo frame is made of glass and therefore is sensitive to excessive force or contact with sharp edges.

10. ◀◀ ▶▶: Fast backward/Fast forward.
11. ❙◀◀ ▶▶❙: Play the previous or next video/audio file.
12. **CALENDAR:** Enter the Calendar mode directly.
13. **ENTER:** Press to confirm selection.
14. **EXIT:** Return to upper menu.
15. **MOVIE:** Enter the Movie mode directly.
16: **MUSIC:** Enter the Music mode directly.

Preparations

Getting started:

Step 1: Install the stand at the rear of the digital photo frame.
Step 2: Insert the DC plug of adaptor to the unit and plug the power adaptor into an available
AC 100-240V wall outlet.
Step 3: Insert memory devices into the correct slot and turn power to ON position on the side
Of the unit.

Installing the stand

Install the stand to the stand hole; place it on a stable and flat surface so that it stands up.

Connecting the power supply

1. Place the digital photo frame on a stable and flat surface.
2. Insert the DC plug of the adaptor into the DC 12V IN on the side of the digital photo frame, and then connect power adaptor to an available AC 100V-240V 50/60Hz mains outlet.
3. Switch the **OFF/ON** key on the side of the digital photo frame to power ON/OFF.
4. When the unit is not being used for a long time, switch the **OFF/ON** key to power it off again and unplug the AC adaptor from mains outlet.
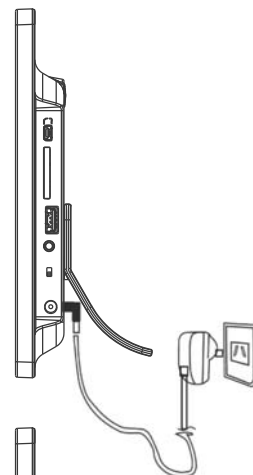

Connecting a USB device

You can view the pictures, listen to music or watch videos from the USB memory device by connecting it to the digital photo frame.
Note: Not all USB storage devices can be read in this digital photo frame.
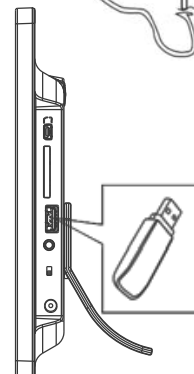

Inserting memory cards

To view the pictures, listen to music or watch videos from a compatible memory card, insert it into the respective card slot in the Digital Photo Frame.This Digital Photo Frame is compatible with the following memory cards: • SD • MMC
Insert a SD or MMC card into the 2- in -1 card slot correctly according to the indication on the unit.
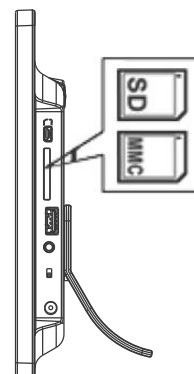

Notes:
1. This unit can play picture, video and music in USB device or memory card.
2. If your USB device or memory card is loaded with images but do not display, the format of your USB device or memory card might not be compatible with the unit.
3. Do not force the memory card into the slot. If you are not able to insert the memory card easily and completely, you may have inserted it incorrectly.
4. To remove the card, pull out the card slowly. Please DO NOT remove the memory card just after inserting it into the unit or when the unit is processing the files. Wait until the screen is stable.
5. SD Card maximum support is 64GB (FAT32 format), USB maximum support is 8GB(FAT32 format).
6. This unit may not be compatible with all USB devices and memory cards, this is not an indication of a problem with the unit.

Connecting the computer

Plug in the memory device to the digital photo frame, you can copy pictures, music or video from computer to the memory device by connecting the digital photo frame to a computer.You can also delete files in memory device from computer.
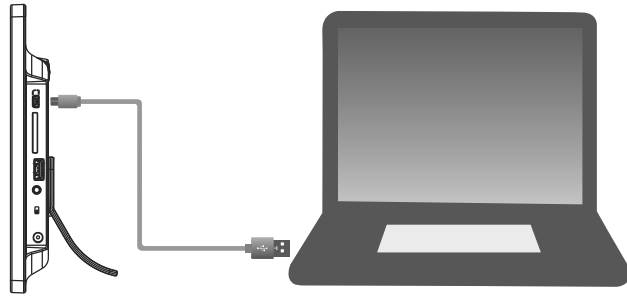

Note: Make sure the USB cable and memory device are well connected before you copy or delete the files.

Connecting headphones

A stereo earphone jack has been provided on the digital photo frame for private listening. To use this jack, plug in the earphones(not included) with a stereo mini-jack 3.5mm plug to the earphone jack and adjust the volume to a comfortable listening level.

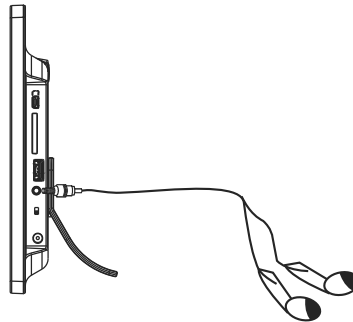

Notes:
1. When headphones or earphones are connected to the earphone jack, the main speakers will be automatically muted.
2. Be sure that the digital photo frame is set at a low volume level before connecting the headphone.
3. Increase the volume gradually for comfortable listening.
4. Listening at high volume for a long period could cause hearing loss.

Selecting the memory device

Plug in memory device and then switch **OFF/ON** key on the side of Digital Photo Frame to power on the unit, it will enter Movie play automatically. Press **EXIT** key twice to enter into memory device selecting interface. You will see the options "local disk" and "usb" on the screen, press ▲▼ key to select the desired memory device, then press **ENTER** key to confirm. Press **EXIT** key to return to memory device selecting interface.
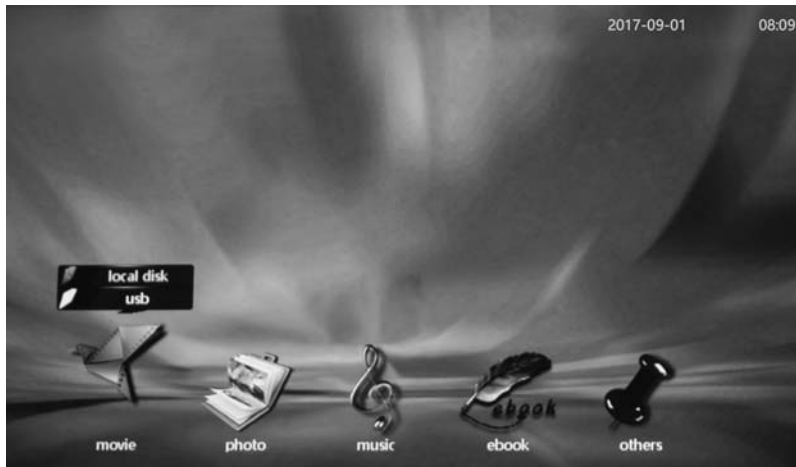

Note: The Digital Photo Frame may be slow to read some large capacity memory cards and USB devices. Please wait for the device to be recognized.

1. Press ▲▼ key to choose an input source : Memory Card or USB device.
2. Press ◄► key to choose Movie/Photo/Music/Ebook/Others mode on main menu.
3. And then press **ENTER** key to confirm your selection.

Main menu

Turn on the digital Photo Frame and enter into the main menu. If SD/MMC card and USB device containing Movie/Photo/Music are inserted, You will see the options "local disk" and"usb" on the screen, otherwise it will display nulldisk. Press◄►key to choose Movie/Photo/Music/Ebook/Others mode on main menu. press **ENTER** key to confirm your selection.
